# Temporary Billboard Signage

---

# Reliable Flexible Memorable

Changing the future of outdoor signage

- Double sided changeable print with backlit illumination
- Used in short (24hrs) and long-term deployment.
- Robust and durable construction, compliant with global safety standards.
- Placed 'on-the-ground' not into-the-ground', no planning permission required.
- Quick and easy installation
- Maximum ground space of 5 square meters
- Height adjustable
- Fast, efficient, and simple print changes

Our clients:

## Sustainability

- Recyclable prints
- Non PVC prints
- 100% recyclable components

## Safety

- “Wind and Vandalism proof”
- No sub-surface check for pipes and wiring

## Efficiency

- Cost cutting through easy and combined transport
- Placement and removal within a couple of days
- Not much space required on site
- No preparation or modification necessary on surface when installed
- Easy print changes on location

## Purposes
